

## INST326 Ethics Project

### Welcome to Word Scramble!

Our project is a word scramble game designed to help students learn about ethics in a fun and interactive way. The game challenges players to unscramble jumbled letters to form correct ethical terms within a given time limit. As they progress through the game, the words become more complex and challenging, allowing players to expand their knowledge and understanding of ethical concepts.

Teaching ethics to students is essential in promoting responsible behavior and decision-making, both in their personal lives and future careers. By playing this game, students can engage in a meaningful learning experience that not only reinforces their knowledge of ethical principles but also helps to develop their critical thinking and problem-solving skills. This game provides an enjoyable and interactive way for students to learn about ethics and encourages them to apply their knowledge to real-world situations.

Here are the game rules:

- You can only enter one word per attempt.
- You have 60 seconds to unscramble each word.
- Words will start off easy but will get progressively longer.
- Each correct word earns you 1 point.
- Words must be at least 3 letters long and valid English words.

Good luck and have fun!
